Office Action Summary	Application No. 10/522,932	Applicant(s) SHARPE, JAMES ALEXANDER	
	Examiner SANJAY CATTUNGAL	Art Unit 3768	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed 07/08/08 have been fully considered but they are not persuasive. Applicant argues that the Zavislan reference teaches an OCT device where in the claimed invention is an OPT device. Examiner would like to point out that the body of the claims merely recite a light scanning means, a rotary stage and scanning the specimen. The claim language set forth does not limit the claims to a OPT device, it is broad enough to encompass any device with the above mentioned structural limitations. The Zavislan reference meets all the structural limitations and hence the rejection is maintained and is made final.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1-10 are rejected under 35 U.S.C. 102(e) as being anticipated by U. S. Patent No. 7,227,630 to Zavislan et al.

4. Regarding Claim 1, Zavislan teaches an apparatus for obtaining an image of a specimen by optical projection tomography, the apparatus comprising light scanning means and a rotary stage for rotating the specimen to indexed positions in each of

which the specimen is in use subjected to a scanning movement of incident light by the scanning means. (Abstract and Fig. 1)

5. Regarding Claim 2 and 3, Zavislan teaches that the incident light is scanned in a direction perpendicular to an optical axis followed by the light passing through the apparatus. (Fig. 1 and 2)

6. Regarding Claim 4-9, teaches that the light scanning means form part of a confocal scanning microscope. (Abstract and Claim 1)

7. Regarding Claim 10, Zavislan teaches that the light is laser light. (abstract and Fig. 1)

Conclusion

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

9. A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
